BROUGHT TO YOU BY TONROSE  LABS

# Supreme

PERCALE 200

Smooth, soft and luxurious, it's easy to see why 200 thread count cotton percale bed linen is loved by upmarket hotel chains, boutiques, B&Bs and their discerning guests.

Widely regarded as difficult to launder and prone to creasing, the Tonrose Labs research team has developed new percale bedding that is easy to process.

Now featuring new **One wash™** technology, new Supreme Percale linen is ready to use after only a single cycle. Crafted from high quality 100% mercerised cotton with a fine one-over-one weave, the collection gives 4\* guests the comfort they expect, without the need for additional processing – saving you time and money.
